### **Road Closure – Maintenance Work**

Spartanburg Water will be performing maintenance activities on New Cut Road between Howard Street and Sibley Street immediately beyond the railroad underpass. This work will require that New Cut Road be closed to all traffic from Howard Street beginning Monday, April 13, 2009. Through traffic will be allowed on New Cut Road from Sibley Street. Alternate routes (detours) will be required to access New Cut Road from Howard Street.

- Southeast of the road closure, traffic will be re-routed to either Franklin Street or Fairgrounds Road onto Haynes Street and then to Sibley Street to regain access to New Cut Road.
- Northeast of the road closure, traffic will be re-routed to Simuel Road back to New Cut Road.

Spartanburg Water crews will be on site daily until repairs are made to the waterline and the roadway is restored to a safe condition.

Questions should be directed to Spartanburg Water Customer Service at 582-6375.
