Letter of Transmittal
December 1, 2017

To the Commissioners and Customers
of the Spartanburg Sanitary Sewer District

We are pleased to submit to you the Comprehensive Annual Financial Report ("CAFR") for the Spartanburg Sanitary Sewer District ("the District") for the fiscal year ended June 30, 2017. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District's management. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The District's management has established a system of internal accounting controls designed to provide reasonable, but not absolute, assurance for the safeguarding of assets and financial statement preparation in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The concept of reasonable assurance recognizes that the cost of internal controls should not exceed the benefits.

The District is required by state law to publish an annual financial report audited by a certified public accountant and this CAFR fulfills that requirement. McAbee, Schwartz, Halliday & Co., Certified Public Accountants, conducted the independent audit of the District's financial statements. The objective was to obtain reasonable assurance that the financial statements are free of material misstatement. The audit was conducted in accordance with U.S. generally accepted auditing standards. McAbee, Schwartz, Halliday & Co. issued an unmodified opinion that the District's financial statements are fairly presented, in all material respects, in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

A Management Discussion and Analysis ("MD&A") is provided in the financial section of this report. The MD&A serves as a narrative introduction, overview and analysis of the District's financial statements. This Letter of Transmittal is intended to compliment the MD&A and should be read in conjunction with it.

PROFILE OF THE DISTRICT

The District is a special purpose district that was originally established by Act No. 556 of 1929 to provide sewer trunkline and treatment services. The General Assembly further empowered the District through Act No. 1503 of 1970 to provide sewage collection services in addition to transportation and treatment services. On January 1, 2008, the District acquired the City of Spartanburg sewer collection system, previously designated as "Subdistrict A." Currently, there is one subdistrict: "Subdistrict B" is comprised of areas north of the City and is responsible for providing sewage collection services to its residents. Since 1970 the District has assumed primary responsibility for providing sewage collection service to other areas of the District.

The District is located in Spartanburg County, which is located in the northwest Piedmont section of South Carolina on the I-85 corridor between Atlanta, Georgia and Charlotte, North Carolina. The current boundaries of the District encompass 137,809 acres (215 square miles) and include the municipalities of Spartanburg, Cowpens, Landrum, Pacolet, and Central Pacolet, and portions of three other special purpose districts, which include the Inman-Campobello Water District, the Liberty-Chesnee-Fingerville Water District and the Startex-Jackson-Wellford-Duncan Water District.

The District is governed by a seven member Commission, all of whom are elected from within the boundaries of the District. The Mayor of the City of Spartanburg ("City") and the three members of the Commission of Public Works of the City of Spartanburg ("CPW") serve as ex officio members of the Commission. The remaining three members are elected from the area of the District outside the City limits. These three members serve concurrent four-year terms.

The District presently operates eight regional treatment facilities: Clifton-Converse, Cowpens, Fairforest, Lower North Tyger River, Pacolet Area, Fingerville, Page Creek (Landrum) and South Tyger River. In addition, the District operates one large pump station at Lawson Fork and 77 pump stations throughout the service area, and 1,102 miles of pipeline, of which 371 miles was acquired from the City of Spartanburg as of January 1, 2008.

LOCAL ECONOMY

Spartanburg County possesses a diversified business and industry base. The following types of industry represent major employers in Spartanburg County: automotive, research and development on yarns/chemicals, flexible plastic packaging materials, radial truck tires, china plumbing fixtures, catalog printing and binding, non-woven materials and consumer specialty bags. Spartanburg County has the highest per capita international investment in the nation. The County has an available, skilled labor force and has taken advantage of the State's excellent worker training programs. Other major employers in the area include public schools, state and local governments, and health care providers.

The city serves as the national headquarters for Denny's, QS/1, and Advance America. The Chapman Cultural Center serves Spartanburg's cultural community for visual and performing arts, science and history. The 86,000-square-foot center is in downtown Spartanburg, adjacent to Barnet Park. The USC Upstate George Dean Johnson, Jr. College of Business and Economics is located in the heart of downtown Spartanburg.

Spartanburg County's unemployment rate in June 2017 was 4.2%, as compared with the state rate of 4.2% and the national rate of 4.5%.

FINANCIAL MANAGEMENT

The District adopts an annual operating budget for management and financial planning purposes. The District's computerized financial planning and rate-setting model is updated annually to provide for a five-year financial plan. Capital improvement plans, and applicable debt service projections for future bond issues, are incorporated in the financial planning process. The five-year plan is reviewed with the Commission, which adopts the budget and rates for the upcoming year only. The overall objective of the financial planning process is to minimize the impact of customer rate increases, while maintaining required debt service coverage. Other considerations of the financial planning process include: volume trends by customer class; maintaining sufficient fund balances to meet the District's operations, maintenance, and capital improvement needs; growth trends for various expenditure categories; and the comparison of customer rates to other utilities in the region. During the fiscal year, financial management tracking includes the following: monthly preparation and analytical review of departmental and company-wide financial reports; significant expenditure variances require follow-up with the responsible budget manager; the company-wide financial report is presented at the monthly Commission meeting; utility user charges are monitored monthly in relation to the approved budget and historical results; the tracking of utility user charges is performed for revenues and flows by customer class.

The Red Flags Rule is federal legislation that requires government agencies, including utilities, to develop written, board-approved programs designed to detect, prevent, and mitigate identity theft. A written Red Flags Identity Theft Prevention Program was approved by the Commissioners on April 28, 2009; the program details the procedures implemented to verify the identity of applicants opening new accounts and to protect sensitive customer information such as social security numbers, bank account information, and credit card numbers. The Red Flags Rule program is monitored on an ongoing basis to ensure compliance with procedures and to provide training. The annual Red Flags Program report was provided at the June 27, 2017 Commission meeting. Management concluded that the program is effective, the

policies and procedures have been followed, and that the internal controls and electronic security measures are protecting sensitive customer data.

The District's cash management policy provides that available funds are invested overnight and longer-term in accordance with state law, which permits the following types of investments: obligations of the U.S. and its agencies, general obligations of the State of South Carolina and its subdivisions, savings and loan associations to the extent of federal insurance, certificates of deposit collaterally secured, repurchase agreements secured by the foregoing obligations, and the State Treasurer's Investment Pool. For more information regarding the June 30, 2017 investment distribution, see Note 2 to the Financial Statements.

The District is a member of the South Carolina Retirement System, one of four defined benefit retirement systems maintained by the Retirement Division of the State Budget and Control Board of South Carolina. For information regarding the District's retirement plan, see Note 6 to the Financial Statements.

For information regarding the District's risk management function, see Note 9 to the Financial Statements.

FINANCIAL CONDITION

The increase in net position for fiscal year 2017 was \$4,813,433, a 10.8% increase for the fiscal year. The customer base increased by 716 accounts, or 1.73%, for fiscal year 2017. The average annual growth rate over the past five years was 1.7%. Debt service coverage of 110% is required by the District's revenue bond covenant. The fiscal year 2017 debt service coverage ratio based on the revenue bond covenant was 154%. A recent rate survey of comparable utilities in the region indicated that the District's customer rates compared favorably with the majority of the agencies in the survey.

Various funds are maintained to meet the operational, maintenance, and capital improvement needs of the system. The Depreciation Fund provides for the renovation and replacement of operational equipment and system facilities, and has been adequately funded in recent years with a June 30, 2017 balance of \$3,438,784. The Collection System Rehab Fund provides for the evaluation, maintenance and replacement of the collection system; the year-end balance is \$2,254,366. The Rate Stabilization Fund, which was established to provide for the smoother transition of future rate increases, has a balance of \$2,508,207 at June 30, 2017.

AWARDS

Spartanburg Water (Spartanburg Sanitary Sewer District and Spartanburg Water System) was honored as Utility of the Future Today, 2016. Spartanburg Water was one of 61 utilities worldwide recognized for exceptional performance by a partnership of water sector organizations in 2016—the National Association of Clean Water Agencies (NACWA), the Water Environment Federation (WEF), the Water Environment & Reuse Foundation (WE&RF) and the WaterReuse Association—with input from the U.S. Environmental Protection Agency (EPA).

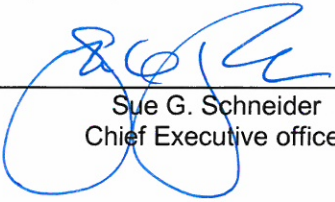

The Government Finance Officers Association of the United States and Canada ("GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to Spartanburg Sanitary Sewer District for its comprehensive annual financial report for the fiscal year ended June 30, 2016. This was the fourteenth year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGEMENTS

We appreciate the support of the Commissioners and the dedication of all our District employees.

Respectfully Submitted,

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the Spartanburg Sanitary Sewer District as of and for the years ended June 30, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Spartanburg Sanitary Sewer District as of June 30, 2017 and 2016, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of funding progress and employer contributions for retiree health plan, and schedules of the District's proportionate share of the collective net pension liability and employer contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Spartanburg Sanitary Sewer District's basic financial statements. The introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audits of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Spartanburg Sanitary Sewer District Management's Discussion and Analysis

This Management Discussion and Analysis ("MD&A") serves as an introduction to the basic financial statements and provides a narrative overview and analysis of the District's financial condition and performance for the fiscal year ended June 30, 2017. This information should be read in conjunction with the transmittal letter and the District's financial statements, as listed in the table of contents included in this report.

Financial Highlights

As of June 30, 2017, total assets of \$223,914,978 and deferred outflows of resources of \$8,646,151 exceed total liabilities of \$183,219,803 and deferred inflows of resources of \$-0- by \$49,341,326. For fiscal year 2016, total assets of \$207,682,854 and deferred outflows of resources of \$9,099,949 exceeded total liabilities of \$171,788,594 and deferred inflows of resources of \$466,316 by \$44,527,893.

For the fiscal year ended June 30, 2017, increase in net position, before capital contributions, was \$1,134,965. The District's increase in net position, after capital contributions of \$3,678,468, was \$4,813,433. For fiscal year 2016, decrease in net position, before capital contributions, was \$1,001,454 and increase in net position, after capital contributions of \$3,334,211, was \$2,332,757.

For fiscal year 2017, operating revenues increased by \$2,126,256 to \$26,330,277, or 8.8%, non-operating revenues increased by \$1,167,545 to \$6,816,865, or 20.7%, and total expenses increased by \$1,157,382 to \$32,012,177 or 3.8%. For fiscal year 2016, operating revenues increased by \$2,787,437 to \$24,204,021, or 13%. For fiscal year 2016, non-operating revenues increased by \$317,412 to \$5,649,320 or 6.0%, and total expenses increased by \$466,078 to \$30,854,795, or 1.5%.

Debt service coverage of 110% is required by the District's revenue bond covenant. The fiscal year 2017 debt service coverage ratio based on the revenue bond covenant was 154%. The fiscal year 2016 total District debt service coverage ratio was 147%.

Overview of the Financial Statements

The financial statements of the District report information about the District using accounting methods similar to those used by private-sector companies. These statements provide both long-term and short-term information about the District's overall financial status.

The Statements of Net Position present the District's financial position and reports information on all of the assets (resources owned by the District), deferred outflows of resources, liabilities (obligations of the District), and deferred inflows of resources with the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources reported as net position.

All of the current year's revenues and expenses are accounted for in the Statements of Revenues, Expenses and Changes in Net Position. Revenue is reported when earned, and expenses are reported when incurred. This statement measures the success of the District's operations over the past year and serves as the basis for determining the District's actual Debt Service Coverage Ratio, as required by the District's revenue bond covenant.

The Statements of Cash Flows reports cash receipts, cash payments, and net changes in cash resulting from operating, investing, and financing activities. This statement provides information as to where did cash come from, what was cash used for, and what was the change in the cash balance during the reporting period.

Financial Analysis of the District

The Condensed Statements of Net Position are provided below as a summary of Assets, Deferred outflows of resources, Liabilities, Deferred inflows of resources, and Net position for the years ended June 30, 2017, 2016 and 2015.

Revenues (excluding capital contributions) of \$33,147,142 for the fiscal year ended June 30, 2017, were comprised of the following:

User charge revenue increased from fiscal year 2016 to fiscal year 2017 by \$2,162,098, or 9.4%, primarily due to an increase in usage and base charges. The increase from fiscal year 2015 to fiscal year 2016 was \$2,795,185, or 13.9%, primarily due to increased usage.

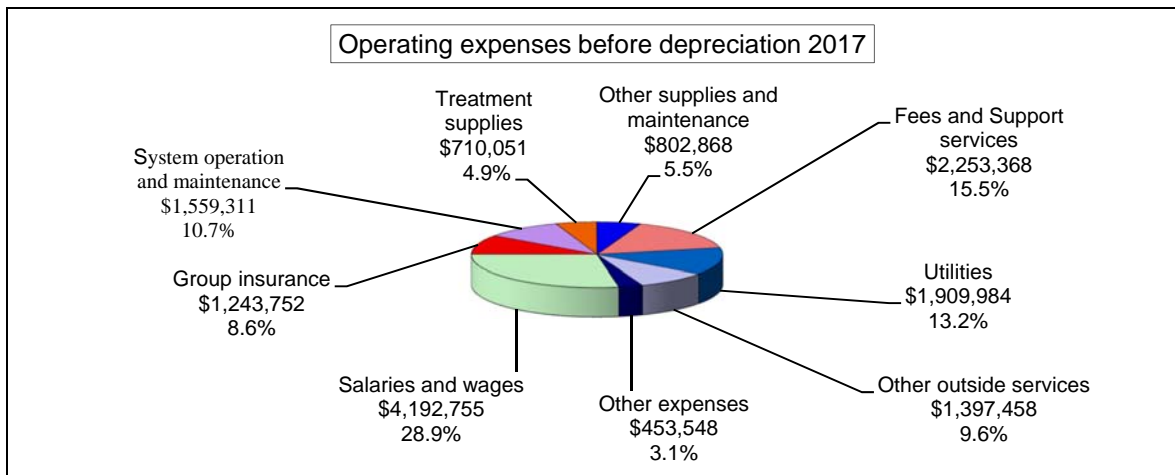

Pursuant to Act No. 1503 of 1970, the District has the authority to levy taxes uniformly throughout the District. The tax revenue may be used to pay debt service on eligible General Obligation ("G.O.") debt and to pay administrative expenses for the District. Property tax revenue was \$6,038,111 and increased by \$1,013,421, or 20.2%, due to the increase in vehicle tax collections, delinquent taxes and the addition of 1.4 bond millage for the 2016 GO Bond. Property tax revenue during fiscal year 2017 consisted of: real property of \$4,919,320, vehicles of \$567,096, delinquent taxes of \$203,132, homestead reimbursement of \$234,595, and other sources of \$113,968. Property tax revenue for fiscal year 2016 was \$5,024,690 and consisted of: real property of \$4,035,067 vehicles of \$512,576, delinquent taxes of \$174,100, homestead reimbursement of \$192,225 and other sources of \$110,722 which was an increase of \$91,099, or 1.8%, which was also attributed to an increase in real property and vehicle tax collections.

Interest income increased \$145,197, or 238%, to \$206,175 for fiscal year 2017, due to the increased investment in capital and rate stabilization accounts, following an increase of \$24,483, or 67% in fiscal year 2016, due to the increased investment in capital and rate stabilization accounts.

Industrial service fees of \$492,704 included industrial service charges of \$315,032 and industrial surcharge revenues of \$177,672 for fiscal year 2017 compared to a total of \$495,097 for fiscal year 2016.

Other revenue includes intercompany reimbursements, septic tank discharge revenues, county maintenance fees, service processing/inspection fees, miscellaneous cost recoveries, and sewer collection fees.

Operating expenses before depreciation were comprised of the following:

The following tables provide a comparison of fiscal year 2017 and 2016 and fiscal year 2016 and 2015 operating expenses for major expense categories.

Operating expenses, before depreciation, increased by \$375,951, or 2.7% from fiscal year 2016 to fiscal year 2017, primarily due to an increase in group insurance and other supplies and maintenance. The increase from fiscal year 2015 to fiscal year 2016 was \$285,116, or 2.1%, primarily due to an increase in system operations and maintenance and utilities. Highlights of the fiscal years 2017-2016 expense comparison is provided below:

- The Salaries and wages increase resulted primarily from merit pay increases and an increase in retirement contributions. These increases were offset by cost savings associated with current year vacancies.
- The Group insurance increase resulted from an unfavorable claims experience for fiscal year 2017 and an increase in workers compensation costs.
- The Other supplies and maintenance increase is associated with increased costs for building and grounds maintenance for reclaimed water treatment facilities and right of way maintenance costs.
- The Utilities decrease results from electrical power with Duke Energy overall and primarily from the from Reclaimed Water Treatment facility.
- The other expense increase was primarily associated with an increase in memberships & sponsorships, property & liability insurance and customer relations expenses.
- The other line items reflected no significant change in the comparison of fiscal year 2017 to fiscal year 2016.

Non-operating expenses totaled \$7,117,147 for the year and consisted of interest expense, paying agent fees and bond issuance costs. Total interest expense and paying agent fees increased by \$286,982.

Capital Contributions

The District receives contributions from developers in the form of cash payments and donated lines; and occasionally, contributions from federal/state agencies in the form of grants for capital projects. Accounting principles generally accepted by the United States of America require that these contributions be reflected as a revenue source on the Statements of Revenues, Expenses and Changes in Net Position. Capital contributions for fiscal year 2017 totaled \$3,678,468, an increase of \$344,257 or 10.32%, and were comprised of donated lines \$3,372,549 and cash payments \$305,919. The most significant capital contributions during fiscal year 2017 are as follows: TRIP North Ph1.1, Rainwater Subdivision, Ridgeville Crossing and Ivywood Subdivision. Capital contributions for fiscal year 2016 totaled \$3,334,211, an increase of \$859,154, or 34.7%, and were comprised of donated lines \$1,769,050

and cash payments \$1,565,161. The most significant capital contributions during fiscal year 2016 were as follows: Flatwood Farms, Upstate Corporate Park and Escavera Subdivision.

Capital Assets

At June 30, 2017, the District had \$172,829,499 invested in capital assets, as provided in the schedule below:

Capital Assets at Year-End

	2017	2016	2015
Treatment plants, interceptor lines, and collection lines	\$ 293,837,853	\$ 282,981,397	\$ 276,413,238
Other facilities and property	1,845,999	1,845,999	1,845,999
Vehicles, office and maintenance equipment	14,887,529	14,548,988	13,333,690
Construction in progress	4,815,494	7,437,944	2,555,404
Subtotal	315,386,875	306,814,328	294,148,331
Accumulated depreciation	(142,557,376)	(132,708,738)	(123,007,143)
Capital assets - net of depreciation	\$ 172,829,499	\$ 174,105,590	\$ 171,141,188

The fiscal year 2017 overall decrease in capital assets was a result of the increase in Treatment plants, interceptor lines, and collection lines, decrease in construction in progress and increase in current year depreciation. The Treatment plants, interceptor lines, and collection lines increase was primarily due to current and prior year construction projects completed and the \$3,372,549 addition of donated sewer lines. The net decrease for construction in progress resulted primarily from the following closed projects: Biosolids Master Plan Phase I, Toray Industries Sewer Line Extension and the LNT Basin Sewer Rehab.

The fiscal year 2016 overall increase in capital assets was a result of the increase in Treatment plants, interceptor lines, and collection lines, construction in progress and current year depreciation. The Treatment plants, interceptor lines, and collection lines increase resulted primarily from the addition of the following: donated sewer lines of \$1,769,050 and the completion of the Accutab Replacement and the Lawson Fork Force Main Piggings project totaling \$1,320,567. The net increase for construction in progress resulted primarily from the following: Biosolids Master Plan Phase I, Toray Industries Sewer Line Extension and the Lower North Tyger River WWTP Expansion and Upgrade. For more information on changes in capital assets, see Note 3 of the financial statements.

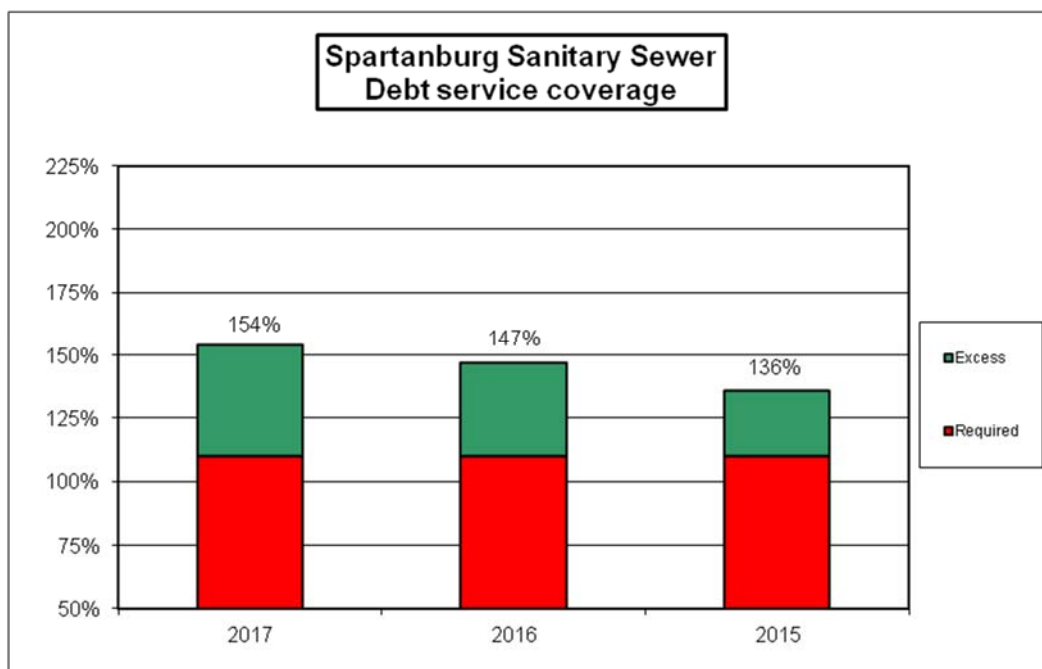

Debt Administration

Debt Service Coverage

In the District's revenue bond resolution, the District covenants and agrees that it will, at all times, prescribe and maintain and thereafter collect rates and charges for the services and facilities furnished by the system which, together with other income, are reasonably expected to yield annual net earnings in the current fiscal year equal to at least 110% of the annual principal and interest requirements for all revenue bonds outstanding in such fiscal year, plus 100% of debt service on any general obligation bonds not paid from ad valorem tax receipts. The computation of net earnings is presented by the detailed schedule of Debt Service Coverage, which is provided in the statistical section of this report. The District's historical debt service coverage is summarized by the table below:

Current Year Transactions

Series 2016 General Obligation Bond

The District issued the 2016 G.O. bond, dated August 30, 2016, in the amount of \$15,325,000 with an annual interest rate of 2.74%. The bond proceeds were used to pay off the Bond Anticipation Note and will provide funding for treatment facility and infrastructure improvements.

For more information on changes in long-term debt, see Note 4 to the financial statements.

G.O. Debt Limit

The District may issue G.O. debt up to an amount equal to 8% of the last certified District assessment, without the requirement of conducting a referendum. Current G.O. debt capacity is determined as follows:

Final 2016 Assessed Value, less	
mfg. depreciation reduction	\$ 642,319,212
G.O. debt ceiling percentage	8%
Current G.O. debt ceiling	<u>51,385,537</u>
Less: outstanding G.O. debt	<u>43,712,000</u>
Available G.O. debt capacity	<u>\$ 7,673,537</u>

Bond Ratings

The District maintained the following ratings during fiscal year 2017:

Agency	Revenue	G.O.
Standard & Poor's	AA-	AA
Moody's	A1	Aa3

Financial Planning

Although the District does not have a legally adopted budget, an annual operating budget is adopted for management and financial planning purposes. The District conducts an update of the financial planning process as follows: departmental staffing plans, detailed budget requests, and depreciation schedules are prepared; District-wide budget information, including revenues, flow estimates, debt service, cost allocations, etc., are completed; capital improvement plans, and applicable debt service projections are utilized for long-term financial planning; the computerized financial planning and rate-setting model is updated to provide for a five-year financial projection; the annual operating budget is presented to the Commission; and a public hearing is advertised and held prior to final approval of the budget, tax levy, and user charges.

The District Commission approved an Annual operating budget for fiscal year 2018 in the total amount of \$32,109,471, which represents a 2.5% increase over the previous year's budgeted revenues and expenditures. The fiscal year 2018 budget included funding of reserves as follows: Depreciation fund - \$1,900,000; Capital - \$950,000; and the Collection system rehab fund - \$1,200,000.

Other Significant Matters

- **Collection System Rehab Program**
The District has continued rehab program efforts associated with the Collection System infrastructure. These project activities include sewer line rehab work, creek crossings, manhole rehab work, right-of-way clearing, and large line cleaning.
- **Monthly Billing**
Spartanburg Water System and Sanitary Sewer District will introduce monthly billing in early calendar year 2018. Most customers are currently billed on a bimonthly basis. This billing change will benefit customers by providing timelier usage information and allowing earlier leak detection. Monthly billing represents the more typical billing method utilized in the water/sewer industry.

SPARTANBURG SANITARY SEWER DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017 AND 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of the Spartanburg Sanitary Sewer District (the District) is presented to assist in understanding the financial statements. The financial statements and notes are representations of the District's management, which are responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America (US GAAP) and have been consistently applied in the preparation of the financial statements.

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and reported revenues and expenses. Actual results could differ from those estimates.

Reporting Entity

The District provides public sewer utility services to the residents and businesses of Spartanburg, South Carolina and surrounding communities. The District is a special purpose district created in the year 1929 by the General Assembly of the State of South Carolina. The District is a primary government with no component units. The District is governed by a seven-member commission comprised of three commissioners of the Commission of Public Works of the City of Spartanburg, the Mayor of the City of Spartanburg and three commissioners elected by citizens residing within the District but outside the area of the City of Spartanburg.

Basis of Accounting

Under US GAAP, the District is considered to be a self-supporting enterprise, and these financial statements are presented accordingly. Enterprise funds are used to account for operations which are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The basis of accounting employed is the accrual method whereby revenues are recognized when they are earned and expenses are recognized when they are incurred. Government Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting financial reporting principles.

Use of Restricted Resources

When both restricted and unrestricted resources are available for use, it is the District's policy to use the restricted resources first, then unrestricted resources as they are needed.

Revenues and Expenses

Operating revenues and expenses consist of those revenues and expenses that result from the ongoing principal operations of the District. Operating revenues consist primarily of charges for services. Non-operating revenues and expenses consist of those revenues and expenses that are related to financing and investing types of activities and result from nonexchange transactions and ancillary activities.

Cash and Cash Equivalents

For purposes of reporting cash flows, all investments with a maturity of three months or less at the time of purchase are considered to be cash equivalents.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Investments

Investments are stated at fair value.

Taxes Receivable and Ad Valorem Taxes

Taxes receivable (current and delinquent) represent property taxes that have been collected and remitted to the Spartanburg County Treasurer's office for its distribution to the District.

The District's uncollected assessed taxes that have been transferred to the Spartanburg County Delinquent Tax Collector were \$377,840 and \$332,120 at June 30, 2017 and 2016, respectively. The District has established an offsetting allowance for uncollectible taxes of the same amount.

The District's property taxes (except vehicles) are levied by the Spartanburg County Auditor each fall on the assessed value of the property located in the District's area as of the preceding January 1. The tax books are open for collection September 1, with the first penalty of 3% applied to payments made after January 15, the due date. A total penalty of 10% is charged for payments made after January 31. Uncollected property taxes attach as an enforceable lien on January 1. Uncollected property taxes as of March 15 are transferred to the Spartanburg County Delinquent Tax Collector at which time a total penalty of 15% is assessed. Spartanburg County bills and collects the District's property taxes. The District's property tax revenues are recognized when assessed.

Assessed values for real estate are established annually by the County Tax Assessor based on the assessment ratio applied to the appropriate class of property. Real and personal property taxes in the District's area were assessed at \$650,107,199 and \$632,305,082 for the calendar years 2016 and 2015, respectively.

Inventories

Inventories are valued at cost using the first-in, first-out method. Inventories consist of expendable supplies held for consumption.

Capital Assets

Capital assets are stated at cost. Donated capital assets are recorded at estimated acquisition value on the date donated. Assets are recorded as capital assets when valued at \$1,000 or more.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period.

Capital assets are depreciated using the straight-line method over the following useful lives:

	<u>Years</u>
System infrastructure	10 - 40
Motor equipment	5 - 10
Maintenance equipment	10
Office equipment	3 - 10
Buildings and improvements	20 - 33

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Compensated Absences

The District provides eligible employees annual leave for each full calendar month of service. When an employee separates from employment, he is compensated for any unused annual leave.

Employees also accumulate sick leave based upon months of service. Sick leave does not vest and is lost upon termination of employment and thus is not accrued. A portion of accumulated sick leave, not to exceed forty-five days, may be redeemed for cash upon retirement. This redemption liability is neither reasonably estimable in aggregate nor accrued for financial statement purposes.

Long-Term Liabilities

Bond premium and discounts are deferred and equally amortized over the life of the bonds.

Deferred Outflows and Inflows of Resources

In the Statements of Net Position, in addition to assets and liabilities, separate sections for deferred outflows and deferred inflows of resources are reported. Deferred outflows of resources represent a consumption of net position that applies to future periods and will not be recognized as an expense until then. Deferred inflows of resources represent an acquisition of net position that applies to future periods and will not be recognized as revenue until that time. The District's deferred outflows of resources consist of deferred loss on refundings, which is the difference in the carrying value of refunded debt and its reacquisition price, deferred and amortized over the shorter of the life of the refunded or refunding debt; and amounts related to the District's defined benefit pension plan. The District's deferred inflows of resources are amounts related to the District's defined benefit pension plan.

Capital Contributions

The District frequently has contributions to its sewer system from developers and contractors. In addition, the District receives grant monies for construction of improvements or extensions to its system at various times. The contributions are recognized in the Statements of Revenues, Expenses and Changes in Net Position when earned.

NOTE 2 - CASH DEPOSITS AND INVESTMENTS

Custodial credit risk - deposits - the District does not have a formal deposit policy for custodial credit risk which is the risk that in the event of a bank failure, the deposits may not be returned to the District. As of June 30, 2017 and 2016, the District was not exposed to custodial credit risk.

Statutes authorized the District to invest in obligations of the United States and its agencies, general obligations (not revenue obligations) of the State of South Carolina and its subdivisions, savings and loan associations to the extent of federal insurance, certificates of deposit collaterally secured, repurchase agreements secured by the foregoing obligations, and the State Treasurer's Investment Pool (SC Pool). The SC Pool, established pursuant to Section 6-6-10 of the South Carolina Code, is an investment trust fund, in which public monies in excess of current needs, which are under the custody of any governing body of a political subdivision of the State, may be deposited.

NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2017 AND 2016

NOTE 2 - CASH DEPOSITS AND INVESTMENTS - CONTINUED

The District has not adopted a formal investment policy.

Investments measured and reported at fair value are classified according to the following hierarchy:

Level 1 - Investments reflect prices quoted in active markets.

Level 2 - Investments reflect prices that are based on a similar observable asset either directly or indirectly, which may include markets that are not considered active.

Level 3 - Investments reflect prices based upon unobservable sources.

The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and should not be perceived as a particular investment's risk. Assets classified in Level 1 of the fair value hierarchy are valued directly from a predetermined primary external pricing vendor. Assets classified in Level 2 are subject to pricing by an alternative pricing source due to lack of information available by the primary vendor.

The SC Pool is a 2a7-like pool, which is not registered with the Securities and Exchange Commission (SEC), but has a policy that it will operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. In accordance with governmental accounting statements, investments are carried at fair value determined annually based upon quoted market prices. The total fair value of the SC Pool is apportioned to the entities with funds invested on an equal basis for each share owned, which are acquired at a cost of \$1.00. Funds may be deposited by SC Pool participants at any time and may be withdrawn up to 24 hours' notice. Financial statements for the SC Pool may be obtained by writing the Office of State Treasurer, Local Government Investment Pool, Post Office Box 11778, Columbia, South Carolina 29211-1950.

Interest rate risk - the District does not have a formal policy limiting investment maturities that would help manage its exposure to fair value losses from increasing interest rates.

The District had the following investments as of June 30, 2017 and 2016:

Investment Type	Maturity	Value		Rating	Fair Value Hierarchy
		2017	2016		
State treasurer's investment pool	<60 days	\$ 22,553,027	\$ 7,995,460	Not rated	N/A

		<u>\$ 29,800,737</u>	<u>\$15,257,707</u>		

The Spartanburg Sanitary Sewer District is required under bond indenture agreements in connection with the issuance of bonds, to segregate certain assets. The assets listed below have been segregated and are restricted in use. They are shown in their respective categories in the accompanying statements of net position.

Bond Anticipation Note

On March 22, 2016, in anticipation of the issuance of bonds in order to provide for the payment of costs for a portion of District improvements, the District issued a draw down revenue bond anticipation note (BAN) not to exceed \$1,500,000. The BAN bore interest at a rate equal to the sum of 70% of the LIBOR daily floating rate plus 45 basis points payable upon maturity at March 22, 2017. On August 20, 2016, the District issued \$15,325,000 in long-term general obligation bonds to defray a portion of the costs of improvements and to repay the BAN. Because the District issued the bonds after June 30, 2016 but before the financial statements were issued, the BAN was classified as long-term debt for the year ended June 30, 2016.

General Obligation Bonds

Bonds payable at June 30, 2017 and 2016 were comprised of the following issues:

	2017	2016

State Revolving Fund Loan

\$626,900 South Carolina Water Quality Revolving Fund Authority Loan (State revolving fund loan) was assumed by the District with the transfer of the City of Spartanburg's sewer lines. The balance as of June 30, 2017 and 2016 was \$181,197 and \$234,343, respectively. The loan matures September 2020, with principal and interest payments quarterly of \$14,493 with an interest rate of 2.25%. In a separate agreement, the state revolving fund loan was given first lien bond status and deemed fully secured by the gross revenues of the District, same as the revenue bonds.

NOTE 6 - PENSION PLAN

Plan Description - The District, as the employer, participates in the South Carolina Retirement System (SCRS) Plan - a cost-sharing multiple-employer defined benefit pension plan administered by the South Carolina Public Employee Benefit Authority (PEBA), a division of the primary government of the state of South Carolina, and managed by PEBA's Retirement Division. PEBA issues a Comprehensive Annual Financial Report (CAFR) containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The CAFR is publicly available through the Retirement Benefits' link on PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223.

NOTE 6 - PENSION PLAN - CONTINUED

Benefits Provided/Membership - SCRS provides retirement allowances and other benefits, for employees of the state, its public school districts, and political subdivisions. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program. Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws, and PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation.

This plan covers general employees and teachers and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit.

An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable service equals at least 90 years.

Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five- or eight-year earned service requirement, respectively.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of 1% or \$500 every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

Contributions - Contributions are prescribed in Title 9 of the South Carolina Code of Laws. Upon recommendation by the actuary in the annual valuation, the PEBA Board may adopt and present to the State Fiscal Accountability Authority (SFAA) for approval an increase in the employer and employee contribution rates, but any such increase may not result in a differential between the employee and employer contribution rate that exceeds 2.9% of earnable compensation. An increase in the contributions rates adopted by the Board may not provide for an increase of more than ½% in any one year. If the scheduled employee and employer contributions provided in statute or the rates last adopted by the Board are insufficient to maintain a 30 year amortization schedule of the unfunded liability of the plan, the Board shall increase the contribution rates in equal percentage amounts for the employer and employee as necessary to maintain the 30 year amortization period; and this increase is not limited to ½% per year. Employees and employers (both Class II and III) are required to contribute 8.66%/8.16% and 11.41%/10.91%, respectively, of earnable compensation for the years ended June 30, 2017 and 2016, respectively. Employers also contribute an additional .15% of earnable compensation, if participating in the death benefit program.

Contributions to the Plan from the District were \$390,224 and \$364,896, for the years ended June 30, 2017 and 2016, respectively.

NOTE 6 - PENSION PLAN - CONTINUED

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2017, the District reported a net pension liability of \$7,277,302 for its proportionate share of the collective net pension liability. The net pension liability was measured as of June 30, 2016. The total pension liability, net pension liability and sensitivity information are based on the July 1, 2015 actuarial valuation, which utilized membership data as of July 1, 2015. The total pension liability was rolled-forward from the valuation date to the plan's fiscal year end June 30, 2016, using generally accepted actuarial procedures. The allocation of the District's proportion of the collective net pension liability and pension expense was determined using the District's actual contributions received by the pension plan relative to the total contributions received by the pension plan for all participating employers as of June 30, 2016. Based upon this information, the District's proportion of the collective net pension liability at June 30, 2017 and 2016 was .034070% and .034171%, respectively, a decrease of .00010% since June 30, 2015, the prior measurement date.

For the years ended June 30, 2017 and 2016, the District recognized pension expense of \$617,089 and \$439,804, respectively. At June 30, 2017 and 2016, the District reported deferred outflows of resources and deferred inflows of resources related to the pension as follows:

2017		
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 427,725	\$ -
Net difference between projected and actual earnings on pension plan investments	180,884	-
District contributions subsequent to the measurement date	390,224	-
Total	<u>\$ 998,833</u>	<u>\$ -</u>
2016		
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 530,511	\$ -
Net difference between projected and actual earnings on pension plan investments	-	466,316
District contributions subsequent to the measurement date	364,896	-
Total	<u>\$ 895,407</u>	<u>\$ 466,316</u>

\$390,224 reported as deferred outflows of resources related to pensions in 2017, resulted from District contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Any other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30	
2018	\$ 137,925
2019	98,493
2020	235,059
2021	137,132

NOTE 6 - PENSION PLAN - CONTINUED

Actuarial Assumptions - The June 30, 2016 total pension liability, net pension liability, and sensitivity information determined by the July 1, 2015 valuation, used the following actuarial assumptions and methods:

Actuarial cost method	Entry age normal
Inflation	2.75%
Salary increases	3.5% to 12.5% (varies by service and includes 2.75% inflation)
Benefit adjustments	lesser of 1% or \$500 annually
Investment rate of return	7.50% (includes 2.75% inflation)

Mortality assumptions are dependent upon the member's job category and gender (RP-2000). This assumption includes base rates which are automatically adjusted for future improvement in mortality using published Scale AA projected from the year 2000.

Actuarial assumptions and methods used in the July 1, 2015 valuation were based on the results of an actuarial experience study, as required to be completed at least once in each five-year period by S.C. state statute. The experience report issued as of July 1, 2015 was performed on data through June 30, 2015.

The long-term expected rate of return on pension plan investments was based upon the 30 year capital market outlook at the end of the third quarter 2015, as developed by the Retirement Systems' Investment Commission, in collaboration with its investment consultant. The actuarial long-term expected rates of return represent assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market based inputs. Expected rate of returns are net of investment fees. The expected returns, along with the expected inflation rate, form the basis for the revised target asset allocation adopted beginning January 1, 2016. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and then adding expected inflation, and is summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Global Equity	43%	3.06%
Real Assets	8%	0.35%
Opportunistic	20%	0.78%
Diversified Credit	17%	0.73%
Conservative Fixed Income	12%	0.18%
Total Expected Real Return	100%	5.10%
Inflation for Actuarial Purposes		2.75%
Total Expected Nominal Return		7.85%

Discount Rate - The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that the funding policy specified in the South Carolina State Code of Laws will remain unchanged in future years. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 6 - PENSION PLAN - CONTINUED

Sensitivity of the Net Pension Liability to Changes in the Discount Rate - The following presents the District's proportionate share of the collective net pension liability calculated using the discount rate of 7.5%, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1% lower (6.5%) or 1% higher (8.5%) than the current rate:

	1% Decrease (6.50%)	Discount Rate (7.50%)	1% Increase (8.50%)
District's proportionate share of the collective net pension liability	\$ 9,078,235	7,277,302	\$ 5,778,093

Pension Plan Fiduciary Net Position – Detailed information regarding the pension plan's fiduciary net position, administered by PEBA, is available in the Systems' audited financial statements for the fiscal year ended June 30, 2016 (including the unmodified opinion on the financial statements). Additional actuarial information is available in the accounting and financial reporting actuarial valuation as of June 30, 2016. The additional information is publically available on PEBA's Retirement Benefits' website at www.peba.sc.gov.

NOTE 7 - POST RETIREMENT HEALTH CARE BENEFITS

Description - The District, through its substantive commitment to provide other post-employment benefits (OPEB), maintains a single employer defined benefit plan to provide certain postretirement healthcare benefits. Participants must be eligible to retire under the SCRS with a minimum of 12 year of service to receive benefits. The District explicitly provides a portion of the cost of coverage for retirees and the retirees are required to pay a portion of the premiums. The cost of coverage for pre-65 retirees is also implicitly subsidized by the District through the development of an average premium rate. After age 65, the District will pay for supplemental Medicare coverage for retirees. Spouses are not covered for pre or post-65 retirees. Because the Plan consists solely of the District's firm commitment to provide OPEB through the payment of premiums to a commercial insurance company, no stand-alone financial report is either available or generated.

Funding Policy - As of June 30, 2017 and 2016, there were 24 and 21 employee retirees, respectively, receiving benefits. The Plan is financed on a pay-as-you-go basis and through separate contributions to the South Carolina Other Retirements Benefits Employers Trust (SC ORBET), a tax-exempt governmental trust under Internal Revenue Code 115. SC ORBET allows each member to choose a contribution amount into the trust based on the actuarially determined annual required contribution. Each member continues to contract with its current health care provider for retiree health care coverage and the SC ORBET pays the benefits chosen by the employer directly to the employer or provider. Each member also shares in the SC ORBET's administrative and investment related expenses.

Annual OPEB Cost and Net OPEB Obligation (Asset) - The District's OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined. The ARC represents a level of funding that if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excesses) over a closed period of 23 years. The following table presents the OPEB cost for the year, the amount actually contributed and changes in the OPEB Plan for the years ended June 30, 2017 and 2016:

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan and the net OPEB obligation (asset) for the fiscal years ended June 30, 2017, 2016 and 2015 is as follows:

<u>Year Ended</u>	<u>Annual OPEB Cost</u>	<u>% of OPEB Contributed</u>	<u>Net OPEB Obligation (Asset)</u>
June 30, 2017	\$ 344,141	102.77%	\$ (32,872)
June 30, 2016	332,803	104.20%	(23,334)
June 30, 2015	340,485	98.93%	(9,355)

Funded Status and Funding Progress - As of January 1, 2017, the most recent actuarial valuation date, the funded status of the plan was as follow:

Actuarial accrued liability (AAL)	\$ 5,879,321
Actuarial value of plan assets	2,051,623
Unfunded actuarial accrued liability (UAAL)	<u>\$ 3,827,698</u>
Funded ratio (actuarial value of assets/AAL)	34.90%
Covered payroll (annual payroll of active employees covered by the plan)	\$ 3,299,959
UAAL as a percentage of covered payroll	115.99%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. These actuarial determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress and employer contributions for retiree health plan, presented as RSI following the notes to financial statements, presents multiyear trend information about whether the actuarial value of Plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions - Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of benefit costs by the employer to a point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

NOTE 8 - DEFERRED COMPENSATION PLANS

Two deferred compensation plans are available to District employees. The multiple-employer plans, created under Internal Revenue Code Sections 401(k) and 457 are administered and accounted for by the State of South Carolina. Employees may withdraw the current value of their contributions when they terminate employment. With approval of the State's Deferred Compensation Commission, employees may also withdraw the current value of their contributions prior to termination of employment if they meet certain requirements. These requirements differ between the two plans. The plans, available to all District employees, permit them to defer a portion of their salary until future years. Participation in the plans is optional and participants elect how their salary deferrals are invested.

Compensation deferred under the Section 401(k) and 457 plans is placed in trust for the contributing employees. Neither the State nor the District has any liability for losses under the plan.

NOTE 9 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District is insured under policies through the South Carolina Office of Insurance Services, South Carolina Reserve Fund (IRF), a public entity risk pool, which issues policies to assume those risks of loss, accumulates assets to cover the risks of loss, and pays claims incurred for covered losses the District is exposed to, related to the following assets, activities, and/or events:

1. Real property, its contents, and other equipment.
2. Motor vehicles.
3. General tort claims.

SPARTANBURG SANITARY SEWER DISTRICT
NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 9 - RISK MANAGEMENT - CONTINUED

The IRF purchases reinsurance to obtain certain services and specialized coverage and to limit losses in the areas of property, boiler and machinery, automobile liability, and medical professional liability insurance. The IRF's rates are determined actuarially.

The District did not have settled claims that exceeded the District's insurance coverage in any of the past three years.

The District provides employee health care under a self-funded insurance program. A commercial insurance company provides aggregate stop loss coverage for claims in excess of \$3,939,992 including Spartanburg Water System and specific stop loss coverage for each claim in excess of \$95,000. The following represents the change in unfilled, unpaid claims from July 1, 2016 to June 30, 2017 and July 1, 2015 to June 30, 2016:

The District with the Spartanburg Water System jointly owns an office building on North Liberty Street in downtown Spartanburg, South Carolina. The facility provides offices for the engineering and other support service departments that serve both organizations. The District owns an undivided interest of the office building. At June 30, 2017 and 2016, the District's share is included in capital assets with a cost of \$257,433 and accumulated depreciation of \$173,632 and \$160,930, respectively.

The District also jointly owns with the Spartanburg Water System approximately 42 acres on Highway 295 by-pass in Spartanburg County for future additional space requirements and facilities to accommodate a maintenance shop and personnel involved in maintenance activities. At June 30, 2017 and 2016, the District's share is included in capital assets with a cost of \$648,572 and accumulated depreciation of \$388,841 and \$375,752, respectively.

The District additionally with the Spartanburg Water System jointly owns a laboratory building on Highway 295 by-pass in Spartanburg County. The facility provides offices and laboratories for the industrial wastewater, backflow prevention and water quality services. At June 30, 2017 and 2016, the District's share is included in capital assets with a cost of \$939,994 and accumulated depreciation of \$400,332 and \$374,692, respectively.

NOTE 11 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES AND
COMMITMENTS

Sick Pay

As described more fully in Note 1, no estimate of any potential liability has been made.

Unemployment Compensation

The District is required to pay unemployment compensation on covered employees. It has chosen the alternative of paying claims as billed by the South Carolina Employment Security Commission. However, under this method of funding, no accurate estimate of any potential liability has been made.

Federal and State Assisted Programs

The District has received proceeds from federal and state grants, and/or entitlements. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant monies.

Underground Storage Tanks

The District has underground storage tanks that are subject to federal and state regulations concerning cleanup costs and third party liability claims. The District has 24 hour a day monitoring systems installed on all storage tanks. However, the District is not insured in the event that a leak should occur, and no estimate of potential liability, if any, has been made in the accompanying financial statements.

NOTES TO FINANCIAL STATEMENTS - CONTINUED
JUNE 30, 2017 AND 2016

NOTE 11 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES AND
COMMITMENTS - CONTINUED

Construction Commitments

Outstanding commitments on construction contracts totaled \$8,954,423 and \$1,669,629 at June 30, 2017 and 2016, respectively.

Arbitrage Rebate Liabilities

Arbitrage represents the difference or "spread" between lower interest rates on tax-exempt government securities and the higher interest on taxable investment securities. The Internal Revenue Code requires local governments to rebate arbitrage earnings to the federal government every five years for as long as the local government has tax-exempt bonds outstanding. The District does not believe an estimate of potential liability, if any, is required in the accompanying financial statements.

NOTE 12 - TAX ABATEMENTS

The District's property tax revenues were reduced by \$185,157 under Fee in Lieu of Ad Valorem Tax (FILOT) agreements and Special Source Revenue Credits (SSRC) entered into by Spartanburg County. The District received a total of \$288,894 under both FILOT and SSRC tax agreements for the year ended June 30, 2017. Under the FILOT agreements, taxpayers receive a reduction in ad valorem property taxes through reduced assessed valued and locked millage rates. Due to these agreements, the taxpayers realized a benefit of \$160,726. Under the SSRC program, taxpayers receive a percentage reduction off their total property tax bill if their property qualified for the program. Due to this program, the taxpayers realized a benefit of \$24,431.

NOTE 13 - RECLASSIFICATIONS

Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements.

- (1) Capacity fees for flows not listed in the table are calculated based upon straight line interpolation between listed fees. In making the calculations, discharge flows are rounded to the nearest whole Residential Equivalent Unit ("REU") which is equal to 300 gallons per day. The wastewater discharge from a single family residence is equal to one (1) REU.
- (2) Capacity fee rates include recovery of a portion of capital costs related to collection system assets in addition to treatment plant and interceptor assets.
