Pathway, Tree & Vegetation, General Permits – no fee Fees
are payable before the permit is issued.

Note: Failure to provide accurate and detailed information will result in applications being returned.

You will be notified of approval/disapproval via email or letter. Upon notification, you will have thirty (30) days to pick up your permit from the lake office. Should you fail to pick up your permit within the specified thirty (30) day time frame, your permit will expire and be considered invalid by Spartanburg Water System.

The Applicant grants SWS's employees and agents the right to enter Applicant's property to inspect SWS property and permitted facilities. Except in emergency situations, routine inspections shall be scheduled for business hours or during the day Saturday. Before entering Applicant's property, SWS will make reasonable efforts to contact Applicant by telephone or in person except in emergency situations or where immediate access to SWS property is required for security or public safety purposes. If the Applicant has not been otherwise informed of a visit, SWS will give written or telephone notice to Applicant after the fact that a visit by SWS employees has taken place. Typically, most inspections are conducted upon the submission of a permit application and Applicant will be informed upon time of submission that inspection will be taking place.
