

Where do I place my watercraft permit sticker?

Recreational boating permit stickers must be applied in the proper location on the watercraft in order to be a valid permit.

Please attach your permit sticker to the left topside (portside) of the watercraft adjacent to the end of the state registration number on conventional watercraft, sailboats and Personal Water Craft (PWCs).

For paddleboards, canoes, kayaks, pedal boats and other non-powered watercraft, the permit sticker must be applied to the left topside (portside) front of the vessel.

Valid permit stickers are required on both Lake Bowen and Lake Blalock before enjoying the lakes.
