Spartanburg Water Partners with the Spartanburg Soil and Water Conservation District in Honor of Arbor Day on December 2

Representatives from both organizations will plant ten trees to commemorate the yearly event

SPARTANBURG – In honor of Arbor Day on Friday, December 2, Spartanburg Water and the Spartanburg Soil and Water Conservation District plan to plant ten, native trees on property directly in front of the Spartanburg Water Collection & Distribution complex.

Tree planting will begin at 10 a.m. on the property, located at 301 South Ave. in Spartanburg.

“The District is excited to partner with the Spartanburg Water System this Arbor Day to bring the benefit of native trees to their Collection and Distribution facility,” said Beth Button, District Coordinator for the Spartanburg Soil and Water Conservation District.

“At Spartanburg Water we gladly support initiatives that bring awareness to our environment, and the planting of trees brings so many benefits. Our team is excited to help make this effort a success,” said Guy Boyle, Spartanburg Water Chief Executive Officer.

###

ABOUT THE SPARTANBURG SOIL AND WATER CONSERVATION DISTRICT: Since 1948, the five-member commission board of the Spartanburg Soil and Water Conservation District has volunteered their time and expertise to promote the wise and responsible use of our natural resources through education, demonstration, and technical services for the benefit of all citizens of Spartanburg County. The District Working closely with SCDNR Land, Water and Conservation Division, S.C. Association of Conservation Districts and the USDA Natural Resources Conservation Service, the District provides resources to our local community.

ABOUT SPARTANBURG WATER: Spartanburg Water, an industry-leading utility, is comprised of Spartanburg Water System and Spartanburg Sanitary Sewer District. It serves a population of nearly 200,000 within Spartanburg County, as well as others in parts of Greenville, Union and Cherokee counties. With the help of its dedicated team of nearly 300 employees, each day it produces an average of 25 million gallons of drinking water and cleans 14 million gallons of wastewater for its customers and community.
